

I strongly oppose the FCC petition that will weaken Indiana's telephone privacy law. Docket # 02-278. I have accounts/relationships with 4 of the banks/institutions who have filed this petition, and I already receive 3-4 solicitations from EACH weekly via US mail. Please don't allow them to invade our homes by calling as well. I also receive email solicitations from them. I think that is enough! At least with those, I can choose whether or not to open their mail or email. Thank you.
